Creating a Website on Replit

1. Once logged in, click on the following link
   https://replit.com/@BrianMorga/myWebsite
2. Click on the Green Button that says Fork & Run
3. Choose a name for this project. By default it should say myWebsite.
4. Click on Fork Repl
5. A demo page will be displayed as well as a template.
6. Navigate to index.html to start working on your own digital business card
